

Repair Café

Toss it? No way!

Repair Cafés are free meeting places and they're all about repairing things (together): clothes, furniture, appliances, bicycles, crockery, toys, et cetera.

Bring your broken items from home. Together with  volunteers you can start making repairs. It's a learning process. Enjoy a cup of tea or coffee!

The **Prince Albert Repair Café** is held the first Saturday of each month from 1:00 to 4:00.

The Prince Albert Repair Café is pleased to be

hosted by the **Prince Albert Science Centre** in the **Gateway Mall**.

What to expect at the Repair Café:

- Carry in your household item and you will be welcomed at the reception station.
- Bring items that you think might be fixable: small appliances, furniture, clothing, toys etc.
- You'll need to sign a waiver form to say you understand that we will do our best to fix your item but there are no guarantees; the fixer decides what is possible.
- There is no fee, but donations are accepted.
- We will have simple refreshments for you to enjoy.
- We aren't competing with professional repair specialists. People who visit Repair Cafés say they normally throw broken items away because they find a professional repair too expensive. When items are too complex, we recommend that you find a local specialist.
